These Terms and Conditions apply to all purchases of any goods from Realstone Systems, LLC ("RSS").
SCOPE OF WORK: RSS is not a contractor and does not perform or contract for the installation of any product.

RSS SHALL NOT ASSUME RESPONSIBILITY NOR SHALL IT BE LIABLE FOR A CONTRACTOR'S WORK OR THE INSTALLATION OF ANY OF RSS'S PRODUCTS.

Absent any specific contrary written instructions, generally accepted industry guidelines must be adhered to by you, including, but not limited to, the Tile Council of North America Handbook and the Marble Institute of America Dimensional Stone Design Manual. Be sure you and your installer or other agents are aware of the unique logistical and technical issues associated with any tile or stone purchase, delivery and installation.

QUANTITIES: All quantities must be verified in advance of purchase by the buyer's installer or general contractor. RSS accepts no responsibility for errors in quantities ordered. We recommend that each order include a minimum of 10%-20% overage on any stone or tile product.

PRODUCT INFORMATION & GUIDELINES: All tile is subject to variation in shade and size. All tile dimensions given by RSS are estimates only, not precise measurements. Tile and stone conditions are not guaranteed after delivery against chipping, crazing, cracking or wear. All stone must be sealed by you or your agents pursuant to the appropriate sealer manufacturer's instructions. All stone must be sealed when used in wet environments to minimize water penetration and tile discoloration. RSS strongly recommends you discuss all sealing and other potential preventative treatments with your contractor/installer prior to installation, as RSS assumes no responsibility or liability in this regard.

CERAMIC/PORCELAIN/GLASS/STONE: Handmade and machine made tile is subject to irregularities in size, shape, color, warpage, moisture absorption, surface finish, texture and coefficient of friction. These characteristics are not defects in the product but are inherent to the manufacture of these products and are in part what creates their distinctive beauty. Stone is a natural material. No two pieces of stone are exactly alike. There will be color variation from samples and displays, as well as within your shipment. Each has unique natural variations which may include veining, markings, shadings, inclusions, chips, pits, fossils or other characteristics. These characteristics are not defects in the product but are inherent to these products. All ceramic, stone, porcelain, and glass products will vary from samples, and from piece to piece.

BLENDING AND DRY LAY OUT: Natural stone and ceramic tile require blending, as they naturally vary from piece to piece and across different segments of your order. It is the responsibility of the installer to remove materials from packaging and dry lay out all materials to obtain the customer's approval of the blend before any tile is installed. This procedure is common practice in the installation of tile and stone and helps ensure the beauty of the finished installation. RSS wants our customers to take the steps necessary to be delighted with their finished spaces. Performance of a blended dry layout of your product is a critical step in ensuring optimal results. We recommend that each order include a minimum of 10%-20% overage on any stone or tile product. RSS strongly recommends that you discuss these blending and dry layout guidelines with your contractor and installer prior to installation.

CUSTOM MATERIALS: Custom orders for any of our products and materials may not be cancelled, exchanged, or returned for any reason. All sales are final for all custom orders. SHIPPING: All products are shipped via common carrier, not by RSS. Carrier assignments are at the discretion of RSS. Customers may arrange their own shipping. All shipments are FOB Destination (please note FOB requirements below).
RSS DISCLAIMS ALL LIABILITY FOR DAMAGE INCURRED DURING SHIPMENT AND ALL CUSTOMER RECOURSE SHALL BE DIRECTLY WITH THE COMMON CARRIER. CUSTOMER FOB INSPECTION REQUIREMENTS:
It is the customer's sole responsibility to verify box count before signing the bill of lading and to note any box count discrepancies immediately on the bill of lading before signing for acceptance of the goods. Said customer is responsible for freight costs back to the point of origin. All returns are subject to a minimal 20% restocking charge. There shall be no refunds or returns for custom, made to order, special order products, pillows & other accessories as same may not be returned or cancelled for any reason whatsoever. Materials sold by full carton must be returned in the original packaging. All returns must be properly packed. Products submitted for return that are received by RSS in broken, damaged or installed condition, will not be credited or accepted. The issuance or denial of credits for returned items shall be at the sole and absolute discretion of RSS. All returns must be authorized in writing, in advance by RSS. A copy of the Return Material Authorization (RMA) must accompany the return for credit to be issued. Installed material may not be returned under any circumstance; and without limiting other forms and means of acceptance, any installation, whether full or partial, constitutes full acceptance of all goods.
