

REALSTONE FLAGSTONE MATS

Realstone Flagstone mats introduces a new concept in stone flooring. Hand selected pieces of slate and quartz are adhered to a mesh mat that allows for an easy modular installation of natural flagstone paving. The stone colors and finish make it fit for any environment, interior or exterior. The modular installation allows the installation of up to 5.4 square feet at a time. These modular mats make the installation faster and more efficient than the traditional method of cutting and placing individual pieces, reducing cost and labor time.

PRODUCT ATTRIBUTES

- Reduced installation time saving time and money over conventional stone installations
- More consistent stone thickness creating a more even surface so furniture rests more evenly
- Thinner and more consistent pieces make the product ideal for both new construction and retrofit overlay
- Less cutting and waste minimizes dust and noise from cutting & waste and disposal time

INSTALLATION

Please refer to our installation guidelines and local building codes for complete installation methods and recommendations. Installation requires a conventional concrete slab and mortar bed for best results. Stone color and shade variations are inherent in natural stone products.

SMALL MAT

3.0 sq. ft. per mat

Approx. mat weight 19 lbs.

Avg. thickness $\frac{3}{4}$ "

Approx. 8 stones per mat

64 Mats per crate (192 sq. ft.)

LARGE MAT

5.4 sq. ft. per mat

Approx. mat weight 34 lbs.

Avg. thickness $\frac{3}{4}$ "

Approx. 7 stones per mat

32 Mats per crate (173 sq. ft.)
