

FEATURED PROJECT | Residential Pool and Outdoor Kitchen

In this residential project, Sierra Algoma Mats were used throughout the entire outdoor living space for a sophisticated upscale look. The mats were used for the pool deck and in the outdoor kitchen and dining area. The masonry contractor found the Algoma Mats exceptionally easy to install over the existing pool deck. The stone was easily cut to accommodate the necessary expansion joints and drainage grates, for a beautiful low maintenance patio.

PROJECT :	Complete renovation of existing residential pool deck and outdoor kitchen
LOCATION :	Stoneham, Mass
