

FEATURED PROJECT | Park Central Tavern

The site for the Park Central Tavern was purchased in the summer of 2008 and underwent a \$2.3 million dollar renovation over a nine month period. Terracotta Accentstone was used on a large part of the front exterior and rear patio of the building, bringing together the rustic look of the original building and the new addition. The natural warm color of the Terracotta Accentstone makes for an inviting space to sample some of the freshest food in New England.
