Customer must determine the appropriate use for any natural stone products purchased. Natural stone is a product of nature and inherently lacks uniformity and is subject to variations in color, hardness, strength, slip resistance, density, and bleeding due to iron content. These are not an accepted reason for warranty claim, return, exchange, or credit request. Further, material damaged due to mishandling can not be returned or credited. Any samples submitted are with the understanding that these qualities are inherent in the nature of the product and are not to be considered latent defects. Realstone Systems LLC[™], cannot be held liable in any cause of action and makes no expressed or implied warranty of merchantability or fitness for a particular purpose for any type of application.
