# RUSTIC STONE

The desire to combine and fashion a contemporary, yet classic stone-look tile propelled us forth in creating Rustic Stone.

Aesthetically we aimed to pay reverence toward the striking and present neo-industrial cement-look, combined with a rural natural stone expression. Simply, we've designed a modern reinterpretation of a rustic stone floor – with a twist.

# RUSTIC STONE

Our efforts have birthed a collection suitable for both countryside and city. Rustic Stone is comprised of 40% recycled content, is made from locally sourced, natural materials and contains no VOCs, PVC or Formaldehyde. Available in four designer colors, Rustic Stone also includes mosaic and trim options

V1

UNIFORM APPEARANCE  
Differences among pieces  
from the same production  
run are minimal.

V2

SLIGHT VARIATION  
Clearly distinguishable  
differences in texture and/  
or pattern with similar  
colors.

V3

MODERATE  
VARIATION  
While the colors present on  
a single piece of tile will be  
indicative of the colors to  
be expected on the other  
tiles, the amount of colors  
on each piece will vary  
significantly.

V4

SUBSTANTIAL  
VARIATION  
Random color differences  
from tile to tile, so that  
one tile may have totally  
different colors from that on  
other tiles. Thus, the final  
installation will be unique.

## technical specifications

		REFERENCE VALUE	DECLARED VALUE	TEST METHOD	
	SURFACE ABRASION		IV	ASTM C1027	 <b>RESISTANT FOR THE HOUSE</b> The product is water-resistant: it stops liquids, body oils, acidic and staining substances from penetrating the tiles. It resists scratches, scuffs and gauges better than any other floor covering. It does not absorb fumes, odors or smoke. It doesn't discolor or fade when exposed to sunlight, or other natural elements. It is completely fire proof. It resists burns and doesn't feed a fire. Its high resistance to abrasive dirt and grime makes it suitable even for heavy-traffic areas of the house such as hallways, entrances, foyers and walkways. <b>FROST RESISTANT</b> Exceeding the ADA standard requirements, the Milestone product can also be used for outside applications. It stands up to abrupt temperature changes and freezing-thaw cycles. When properly installed according to ANSI A137.1. It's strong enough to be used in exterior applications even in frigid climates. Proper consideration must be given to the anti-slip requirements of the area to be tiled. <b>ANTI-SLIP</b> The testing conducted on our finished product will guarantee that all of our tiles will have an anti-slip surface so they may be used with total confidence in kitchen and bath applications. The Milestone product is perfect for both home and commercial interiors, such as restaurants, offices, retail stores, etc. Its anti-slip properties provide a safe walking surface in both wet and dry conditions, according to the Americans with Disabilities Act. <b>HYGIENE/SANATATION &amp; EASY CLEANING</b> The Milestone product doesn't absorb odors or bacteria of any kind. It's easy to clean with a damp sponge, mop, or cloth. For a more intense cleaning, simply use a mild solution of water and a common household detergent. Regular cleaning will stop the growth of germs and bacteria in damp areas such as the bathroom.
