C-Chain Textured Mosaic

## C-CHAIN

The C-Chain collection includes four products made of the same marble. There are two C shaped mosaics one polished and one in a brushed finish. The Diamond mosaic creates a three dimensional look with a geometric pattern of white and grey marble. The collection is completed with loose subway tiles and bullnose trim pieces all in the same marble for a complete installation solution. The tiles and mosaics can be used in both flooring and wall installations, indoors and out\*.

Lure Polished Mosaic

## LURE

The Lure collection is rich in varying textures and appeals to the MCM design esthetic. The Lure Strips mosaics create a linear look with small tiles of varying textures stacked in linear rows. The Lure mosaics are made using a precision cut C&C machine to create a unique modern shape. The Lure Mosaic pairs pebbled silver-grey 'L' shaped components with smooth honed white marble or a fully polished mosaic. The collection is completed with bullnose trim pieces all in the same marble for a complete installation solution. The tiles and mosaics can be used in both flooring and wall installations, indoors and out\*.

Fairmont Brass Hex, Brass Mini Hex, Brass Subway Mosaic

# FAIRMONT

The Fairmont collection includes a range of products that pair beautifully together for a full installation solution. The Brass Hex and Mini Hex mosaics pair brass-finished pieces with polished white or black marble for a dramatic look. The Brass Subway tiles are made of marble and real solid brass. The collection of penny rounds are made of the same marble as the all the products in the collection and are the perfect material for floors or detailed vertical installations.
