COLLECTION  
**STONE • THIN BRICK**

.....

# Exquisitely crafted exterior. Radically innovative interior.

Not only do our Crafted stone and thin brick profiles look more appealing compared to other manmade materials in the industry, but these products meet and exceed expectations during installation. Each stone and brick mold is perfected to be the best replica of the real thing, expertly filled with a revolutionary high density cement blend. Industry professionals applaud the impressive through-body color. This allows the product to retain a natural look even if chipped or scratched. The crafted collection offers a solution for every budget, making it an effortless selection for any project.

# GORGEIOUS ON THE OUTSIDE. REVOLUTIONARY ON THE INSIDE.

Our proprietary cement mix has revolutionized faux stone.

## A collection of various shaped and finished ceramic tiles and bricks. The items include several rectangular and square tiles in different shades of beige and light brown, some with a textured surface. There are also square tiles with circular or rectangular holes. A row of small, rectangular bricks is visible at the bottom. To the right, a stack of four L-shaped bricks is shown. The background is black.

## Hearths, Sills, Wall Caps, Blocks, Receptacles, Trim, Corners
